Thank you for allowing us to care for your lawn this year, our 26<sup>th</sup> year in business. Since we are entering into the end of the season, we are evaluating the effect of summer on the lawns and landscapes in the area. The winter was relatively mild, except for one week which had us plowing every day. The spring started with record setting rainfall amounts and by Memorial Day, record setting heat. This caused above average weeds and crabgrass in many lawns. Efforts to mow high and water when dry are the two most important things homeowners can do to protect their investment, along with a regular fertilization schedule (fertilization helps to thicken the lawn which is a natural barrier against weeds and diseases) and aerating and seeding when necessary. Once again, we are thinking of the forthcoming season. Since we don't assume services from one year to the next, we are passing this confirmation letter along as a convenience to you. Please fill out this form and send it in to us if you would like us to continue servicing your property. Just let us know if there will be any changes to your program. ***Please include a current phone number, many people are no longer using their landlines and it makes it difficult to contact people without an up-to-date phone number.***

Please return this form as your confirmation  
for the 2019 season.

I would like the same basic services for 2019 (Fertilization, Aeration, Mowing, or Tree Care):

Fertilization     Aeration (Spring or Fall-please circle)     Mowing     Tree and Shrub Program

*(If you want to change any of the basic services, please indicate changes below. This form will serve as your confirmation for upcoming season, we will not call you to confirm the basic services if we receive this from you.)*

If you would like any additional services, such as landscaping, mulch, pruning (any season, including winter), tree care, insect control, seeding, dethatching, etc., please explain in detail in the space provided below and we will get back to you.
