Thank you for allowing us to care for your lawn this year, our 32nd year in business. Since we are entering into the end of the season, we are evaluating the effect of summer on the lawns and landscapes in the area. Our winter was relatively mild, and snowfall totals were down. We had adequate moisture in the Spring and early summer into July. August was relatively dry, insect presence was low but crabgrass and other weeds were excessive. We welcome the cool days of Fall to help lawns bounce back. Once again, we are thinking of the forthcoming season. Since we don't assume services from one year to the next, we are passing this confirmation letter along as a convenience to you. Please fill out this form and send it in to us if you would like us to continue servicing your property. Just let us know if there will be any changes to your program. ***Please include a current phone number. Many people no longer have a landline, so please let us know if this needs to be erased from your customer file. If the season starts and you don't hear from us please call with any updates.***

Please return this form as your confirmation
for the 2025 season.
